

TELUS Business Voice & Internet Bundle

Get reliable business phone and Internet services and more in a convenient cost-effective bundle. Designed for franchise locations or businesses with simple technology needs, the bundle provides you with the basic services you need to keep your business running effectively along with savings and cost certainty through contracted options.

A connection you can trust.

We know how important the Internet is to your business. You need it to process payments, communicate with customers, order supplies and stay connected. You need services that keep you and your employees productive and equipped to service your customers. You need reliability.

Only TELUS offers you fast and secure Internet connectivity paired with 4G failover¹ – in the rare event of an outage, 4G failover switches you to our high speed wireless network, allowing your business to keep running with minimal to no impact.

The Business Voice & Internet Bundle includes:

- Office Internet with 4G failover
- Business phone line(s) with your choice of single or multi-line services²
- Unlimited calling features to help you effectively manage your calls
- Optional Business long distance – competitive Canada & U.S. rates for staying connected with customers, suppliers and partners

TELUS WI-FI

Plus, deliver a better customer experience with TELUS Wi-Fi.

You can get TELUS Wi-Fi in addition to your bundle, at no additional cost to you³. With TELUS Wi-Fi, you make wait-times more convenient, enjoyable and productive for your customers, helping them reduce their wireless data plan usage. TELUS Wi-Fi is delivered over a dedicated connection that won't interfere with your business' Internet speeds or security.

Contact your TELUS Account Manager or call 1-877-710-0404 for more information.

WHY TELUS?

- Our national network and built-in redundancies ensure the security of your data and the persistence of your connection
- The 4G failover service, included with your bundle, gives you peace of mind – it's there if you ever need it
- Ask about our complimentary TELUS Wi-Fi - it gives you additional value and helps you deliver a better experience to your own customers

¹ Included in the TELUS Business Voice and Internet Bundle (includes 1GB of wireless data backup/month and a \$0 device fee). If termination of the TELUS bundle occurs within the first six (6) months of the term, the customer must pay TELUS the current fee for the 4G failover device. ² Five (5) individual lines or up to a maximum of nine (9) combined individual and multi-line services available with TELUS Business Voice and Internet Bundle. Not all calling features are available with Multi-Line service. ³ If TELUS Wi-Fi is desired, it will be installed at locations able to access speeds of at least 15Mbps download, and 1Mbps upload. Final qualification will be determined at the time of order provisioning and credit qualification will apply. All users connecting to the TELUS Wi-Fi network will need to sign in to the registration portal with their email address and accept the Service Terms to access the service. ©2014 TELUS. 14_00559-03
