TELUS Website Services: Web Design Do It Yourself Plan Comparison
	Intro $7/mo.	Intermediate $12/mo.	Advanced $17/mo.
Build your Website			
Customer Access Portal Get the tools and support you need all in one place. The Customer Portal is accessible via secure login to all customers and is where you get started. It includes all the applications (EasySiteWizard, EasySiteOptimizer, EasyStoreMaker, etc.) you need to get your website up and running as well as tools like Web Analytics where you can continue to maintain and monitor your site.	✔	✔	✔
EasySiteWizard Pro: Website Creator Build a professional website with ease. A guided process for template-based website creation and editing along with a wide variety of industry based website templates, helps you quickly establish your web presence. EasySiteWizard Pro will help you name your pages, associate keywords within those pages and guide you through integrating widgets like a Google map, displaying Facebook wall posts and setting up online forms for visitors to complete.	✔	✔	✔
Joomla — Content Management (Installer) Go beyond the EasySiteWizard templates and build your site from scratch with more advanced creation and editing capabilities. NOTE: This application is for users with intermediate to advanced level web expertise because of the need to understand coding.	–	✔	✔
Advanced Template Gallery — 5000+ Templates Build a more sophisticated website using this advanced website design tool with thousands of highly customizable template designs that can be edited by applications such as Adobe Photoshop, Macromedia Flash MX and Macromedia Dreamweaver MX. NOTE: Knowledge of these applications is highly recommended when using the Advanced Template Gallery.	–	–	✔
WordPress — Blog (Installer) Provides the ability to create websites (including a blog) using open source technology (a platform that has been built by and for a community. It is not proprietary and is freely available to the public for use).	✔	✔	✔
Custom Error Pages Create custom error pages for your website; these pages will be displayed to your site visitors if one or more of your website pages become inactive or break (as opposed to a standard 404 error message).	–	✔	✔
EasyStoreMaker Pro™ — eCommerce Store Easily set up a full-featured online store that accepts credit card orders right from your website. EasyStoreMaker Pro features professional store templates, supports a variety of payment gateways, auto messaging, multiple product uploading, product showcasing, local tax calculation, shipping and handling fee calculations and offers a secure page to view all online orders. You do not need any programming or ecommerce development experience to create a store using this tool.	–	–	✔
osCommerce (Installer) A more advanced alternative to EasyStoreMaker Pro, suitable for those who have experience and knowledge in building an eCommerce site. osCommerce allows you go beyond the capabilities of the templates within EasyStoreMaker Pro.	–	✔	✔
