

TELUS Expand My Business solution

Now you can grow your business without growing your IT department

There are so many ways IT can help you expand your business. It can enable you to reach more customers, showcase your products or services, increase sales, and improve staff productivity. However, using more IT usually means additional IT resources. Now it doesn't have to, thanks to the Expand My Business solution.

Let TELUS take care of your Website and Business Email

Expand My Business delivers the two services you rely on to market your business and keep staff productive:

- 1. TELUS Website Services** — includes a domain name (new or existing) and gives you access to the tools you need to easily create, host, and optimize your website
- 2. TELUS Business Email** — 10 Microsoft Exchange mailboxes with ActiveSync®, allowing employees to synchronize email, calendars and contacts between MS Outlook, Webmail, and their mobile devices

These services are managed, monitored and supported 24/7/365, right here in Canada in our secure and reliable TELUS Internet Data Centres. With no upfront costs, simple setup, expert support, and a single agreement and bill, TELUS makes it easy.

Your website and business email made simple

TELUS understands there are many options available for your website and business email hosting. That's why our Expand My Business solution offers you:

- competitive all-inclusive pricing,
- a simplified experience with one agreement,
- enhanced migration options, and
- one bill.

Further, your website and email are hosted in our reliable and secure Canadian data centres, for utmost peace of mind. As one of Canada's leading Cloud and Hosting Services providers and with nearly 40,000 websites and 100,000 TELUS Business Email (MS Exchange) users under management, TELUS has the experience and expertise to help you expand your business.

Choose the plan and additional options that work for your business

Start by choosing from one of our Website Services plans, which we've packaged together with Business Email. Then choose add-on options to suit your business needs.

Grow and market your business with TELUS Website Services

In today's world, your online presence is vital to grow and promote your business. TELUS Website Services provides everything you need to get your company online. Benefits include:

- **Grow brand recognition:** use a new or existing domain like mybusiness.com for your website, and Business Email accounts like name@mybusiness.com for consistency
- **Design with ease:** build a professional website and keep it up to date with easy to use design templates and drag and drop editor capabilities
- **Promote your business:** tools like Announcer Pro help you create and send professional email marketing messages to promote your business
- **Improve the web experience:** measure the performance of your site with analytics and make data driven improvements to your online presence
- **Focus on your business:** Leverage TELUS' investment in Website tools and applications, and benefit from our expert technical support 24/7/365 – get help when you need it

Increase mobile worker productivity with TELUS Business Email

Your mobile workers are often the face of your business. But their productivity can suffer if they don't have the right tools to plan and manage their day. TELUS Business Email allows teams to connect and collaborate securely from any device, in the office or on the go. Benefits include:

- **Maintain productivity:** allow employees to synchronize email, calendars, and contacts between their MS Outlook (on their office computer), Webmail access, and their mobile devices
- **Expand your business with ease:** start with 10 mailboxes, then choose add-on mailboxes for additional employees; add / delete mailboxes online as your business needs change over time
- **Manage costs:** transition from a capex to an opex-based model thanks to the cloud, and avoid expensive one-time hardware, software and IT training costs
- **Focus on your business:** put the burden of planning and implementing your email migration on TELUS with our QuickStart services, and leverage our expert technical support 24/7/365

Expand your business today. Contact your TELUS Account Executive, visit telus.com/expandmybusiness or call 1-877-710-0404 now.
